Wind can be unpredictable and destructive, which is why we developed our super-resilient Windbreaker Series. Windchamber-tested for increased wind-load resistance, this extra-sturdy series provides enhanced defense against the elements. For better protection and maximum strength, just look for the Windbreaker seal – Superior Protection Provided by C.H.I.

High-Definition Fiberglass Doors

2700
SERIES

Defined. Intriguing.

Your home reflects who you are and allows you to make the statement you choose. As the largest door on your home, your garage door provides a unique opportunity to showcase your style. C.H.I. has a sophisticated line of doors for homes that require more than the standard look. Not only does the 2700 series boast an intriguing appearance, but it's also energy-efficient with a thermally-broken polyurethane core, providing a superior insulation rating and optimum protection from the outside elements.

Created for those who choose to create a statement.

2700 SERIES HIGHLIGHTS. **1** Crisp lines and shadows provide definition to enhance the homeowner's ability to add curb appeal and increase the value of their home. **2** A premium urethane core is injected between a highly impact-resistant fiberglass face and interior steel skin. This design offers a high calculated R-Value* of 15.07 and additionally protects with a tongue and groove, thermally-broken section joint. **3** A white, 25-gauge interior steel skin finishes off the design creating a clean, durable finish to the interior of the garage.

2700 FEATURES

The sections are 2" thick with a formed fiberglass face and a 25-gauge flush steel interior skin that is factory-finished in white

Exterior skins are factory-finished in six designer colors: white, almond, evergreen, mahogany, walnut and oak with optional wood-tone available in oak, mahogany and walnut

Unfinished (tan) exterior skins are available for field gel staining

Optional 1/2" insulated designer lites** are available with a beveled acrylic face and 1/8" DSB obscure glass back with brass or platinum caming

Thermally-broken for optimum weather protection

Concealed steel plates run continuously from top to bottom of each section for fastening hardware

White painted end stiles

Bottom weather seal utilizes an aluminum retainer and extruded virgin vinyl

Available widths for all models: 8', 9', 10', 12', 16', 17' and 18'

Models 2701-02-03 available heights: 6'6" to 14' in 3" height increments

Models 2751-52 available heights: 7' to 14' in 3" height increments (except 8'3", 8'6" and 10'3")

All models calculated R-Value* - 15.07

*Calculated door section R-value is in accordance with DASMA TDS-163.

**Designer Lites NOT available in the 2751 design.

Note: Unfinished doors are for field gel staining only. Follow directions provided by gel stain manufacturer. If field painting is desired, the door must be factory finished (painted) prior to any painting in the field. Use only oil based or 100% acrylic house paint when repainting doors.

All information presented is based on the specifications and features available at the time of printing and is subject to change without notice.
