SECURITY, SAFETY & CONVENIENCE IN ONE OPENER
Choose a rugged chain drive or our quiet belt drive model

- Some models feature built-in Z-Wave® technology, as part of an expandable, wireless home controls network. Z-Wave can be activated from your car to open or close your garage door, turn on or off indoor and outdoor lights, adjust the thermostat - even start the coffee and so much more.
- Each Z-Wave enabled prodrive® model can control up to 4 different “scenes”
- Quiet, smooth operation
- Powerful 1/2 hp motor for smooth, reliable opening and closing
- For added security, rolling code technology prevents “code stealing”
- Automatic security light with 4-minute delay
- Infrared sensors for added safety
- 3-button transmitters can trigger several different pre-programmed “scenes” with Z-Wave
- Fast, easy installation
